

## INTRODUCTION

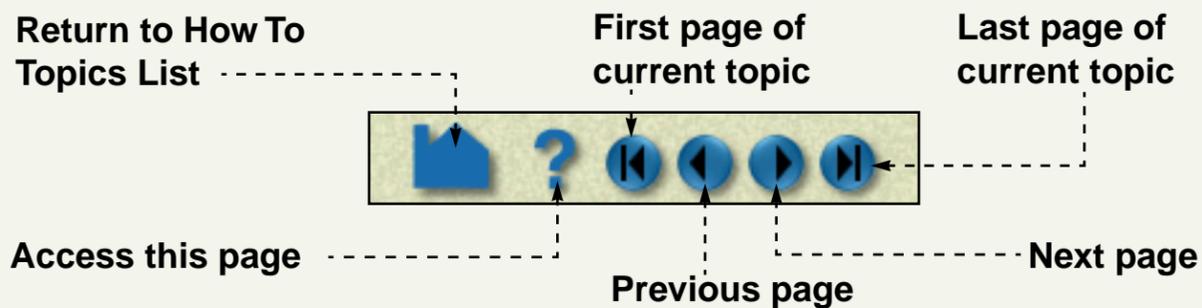

The “How To” documentation provides quick access to various topics of interest. The topics provide basic and some advanced usage information about a specific tool or feature of EnSight. Each topic will provide links to the appropriate section of the EnSight User Manual as well as links to other applicable How To articles.

Topics typically contain the following sections:

<b>Introduction</b>	Introduction to the topic
<b>Basic Operation</b>	Quick steps for simple usage
<b>Advanced Usage</b>	Detailed information on topic
<b>Other Notes</b>	Other items of interest
<b>See Also</b>	Links to related topics and documentation

(See below for how to quickly jump to a specific section.)

The header and footer of each article page provides simple navigation controls:

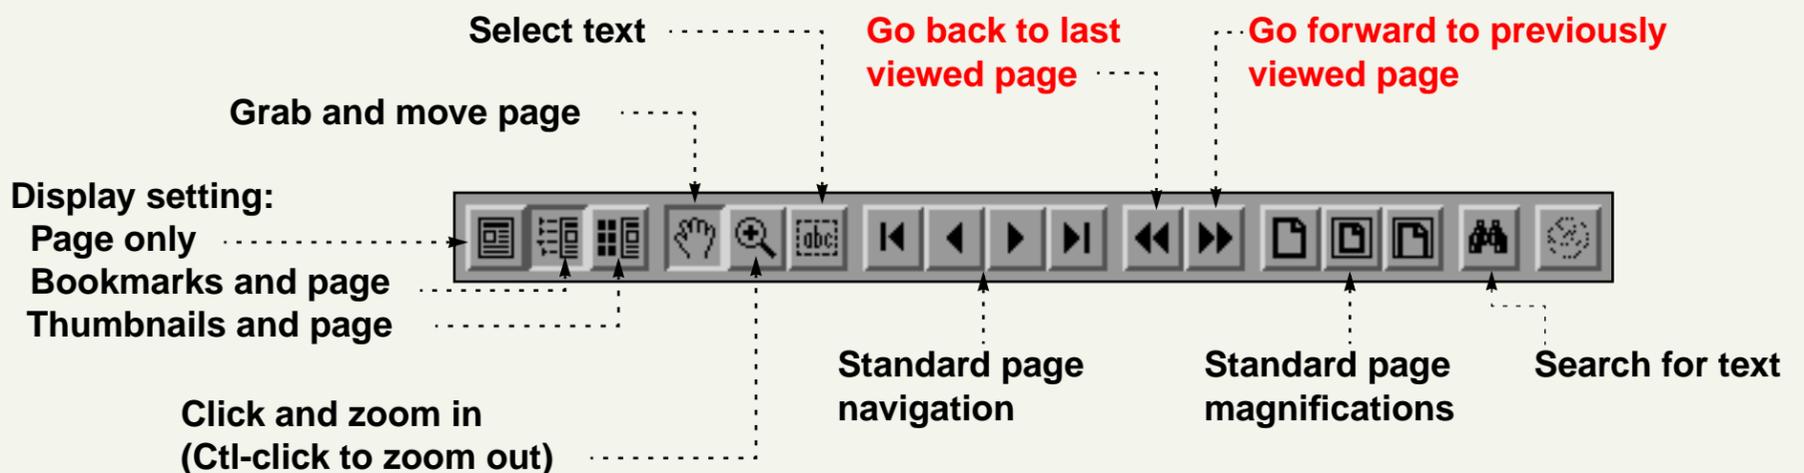

In addition, links to other documents are displayed as **highlighted text** (note that all links and navigation controls are colored blue).

## ACROBAT READER

The EnSight online documentation uses the Acrobat® Reader software from Adobe Systems, Inc. Acrobat Reader provides much the same functionality as a World Wide Web browser while providing greater control over document content quality. The user interface is very simple and provides intuitive navigation controls. Keep in mind that the pages were designed to be viewed at 100% magnification. Although you can use other magnification settings, the quality of the dialog images may be degraded.

The Acrobat Reader toolbar provides quick access to various display options and navigation controls.

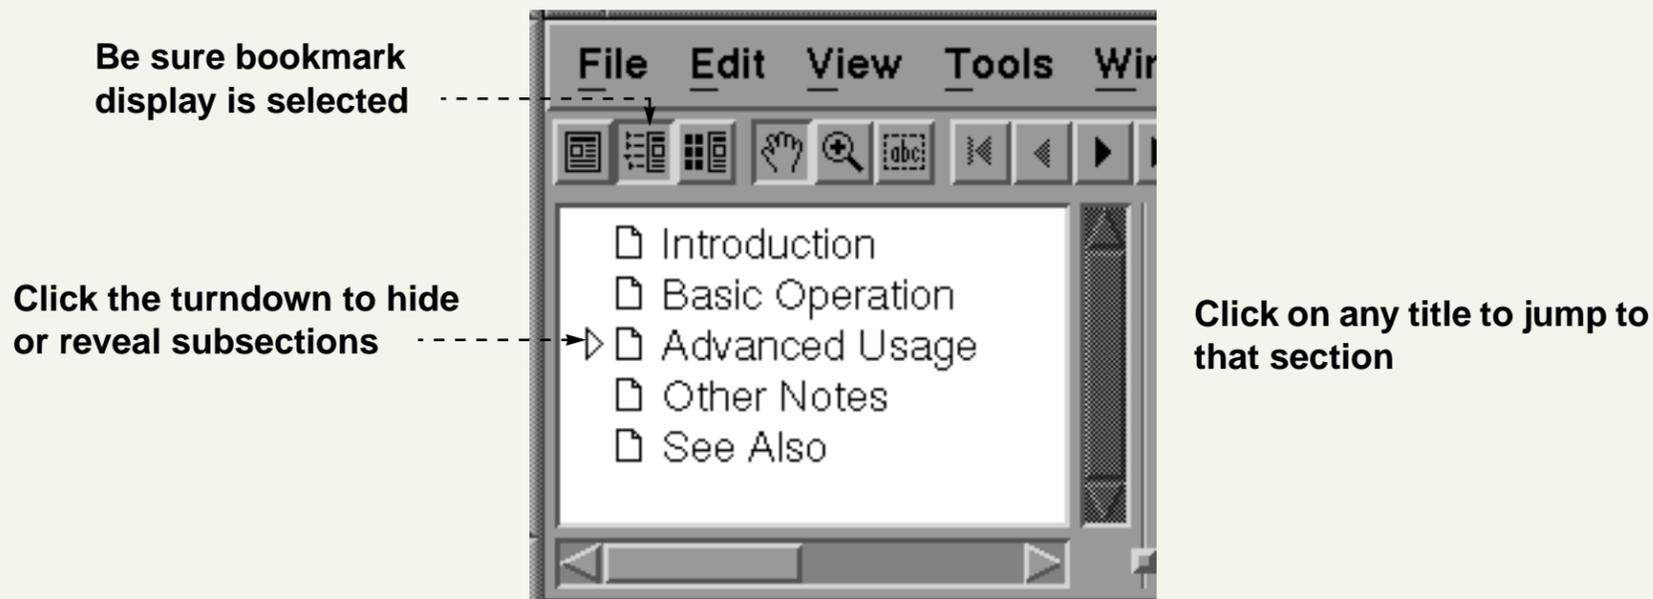

The “Go back/forward” buttons are particularly useful – they operate somewhat like the “Back” and “Forward” buttons on standard Web browsers. If your previously viewed page was in a different document, Acrobat will automatically reload the appropriate file and jump to the correct page. Note that Acrobat also considers a change of view (e.g. scrolling) or magnification as an event to remember in the back/forward list.

For additional information on Acrobat Reader, you can load the online help by selecting “Reader Online Guide” from the Help menu.

Each How To topic provides a set of *bookmarks* that match the standard section titles. You can quickly navigate to one of these sections by using the bookmark list in the left column of the Acrobat user interface:

## PRINTING

### Printing From Acrobat Reader

You can easily print any topic in the How To manual. To print a topic:

1. Navigate to the topic you want to print.
2. Choose Print... from the File menu of Acrobat Reader.
3. Click the "Shrink to Fit" option button. Pages in the How To manual are tabloid format (11 x 17 inches) to permit larger dialogs and other images. Shrink to fit will print the entire page on standard 8.5 x 11 inch paper.
4. Be sure the Printer Command setting is correct for your environment and then click OK. Your document should print to the selected (or default) printer. If you do not have a printer available on your network or you wish to save the PostScript file to disk, you can do so: click the File button, enter a filename, and click OK.

### Printing From PostScript Files

PostScript files for all documentation (including the *Getting Started* manual) are also included on the EnSight CD distribution (but not off-loaded to disk during the installation process). A shell script is provided to automate the document printing process. To print the PostScript files:

1. Insert the EnSight CD.
2. Go to the mounted CD directory. For example, if your system mounts CDs on /CDROM:

```
% cd /CDROM
```

3. Go to the directory containing the PostScript distribution.

```
% cd ensight62/doc/PostScript
```

4. Execute the `printdoc` shell script and follow the instructions on the screen:

```
% ./printdoc
```
