

## INTRODUCTION

The EnSight online documentation consists of two main pieces:

*How To* The How To documentation consists of relatively short articles that describe how to perform a specific operation in EnSight, such as change the color of an object or create an isosurface. Step-by-step instructions and pictures of relevant dialogs are included. In addition, each How To article typically contains numerous hyperlinks (colored **blue**) to other related articles (and relevant sections of the User Manual).

Note that, although the entries in the How To table of contents and index are not colored blue, you can still click on an entry and jump to the appropriate document.

[How To Table of Contents](#)  
[How To Index](#)

*User Manual* The User Manual is a more traditional document providing a detailed reference for EnSight. The User Manual contains blue hyperlinks as well. Both the User Manual table of contents and index entries are hotlinked as well as cross-reference entries within chapters (which typically start with “[See Section ...](#)” or “[See How To ...](#)”).

## WHERE TO START?

If you are new to EnSight you should read the [EnSight Overview](#) article. [Chapter 1](#) and [Chapter 5](#) in the User Manual also provide overview information. The [Introduction to Part Creation](#) provides fundamental information on EnSight's *part* concept.

## ACROBAT READER

The EnSight online documentation uses the Acrobat® Reader software from Adobe Systems, Inc. Acrobat Reader provides much the same functionality as a World Wide Web browser while providing greater control over document content quality. See [How To Use the How To Manual](#) for more information on Acrobat Reader.

## HOW TO PRINT THE DOCUMENTATION

### Printing From Acrobat Reader

You can easily print any topic or chapter in the online documentation. To print:

1. Navigate to the topic or chapter you want to print.
2. Choose Print... from the File menu of Acrobat Reader.
3. For How To articles, click the "Shrink to Fit" option button. Pages in the How To manual are tabloid format (11 x 17 inches) to permit larger dialogs and other images. Shrink to fit will print the entire page on standard 8.5 x 11 inch paper.
4. Be sure the Printer Command setting is correct for your environment and then click OK. Your document should print to the selected (or default) printer. If you do not have a printer available on your network or you wish to save the PostScript file to disk, you can do so: click the File button, enter a filename, and click OK.

### Printing From PostScript Files

PostScript files for all documentation (including the *Getting Started* manual) are also included on the EnSight CD distribution (but not off-loaded to disk during the installation process). A shell script is provided to automate the document printing process. To print the PostScript files:

1. Insert the EnSight CD.
2. Go to the mounted CD directory. For example, if your system mounts CDs on /CDROM:

```
% cd /CDROM
```

3. Go to the directory containing the PostScript distribution.

```
% cd ensight6/client/doc/PostScript
```

4. Execute the `printdoc` shell script and follow the instructions on the screen:

```
% ./printdoc
```

## CONTACTING CEI

If you have questions or problems, please contact CEI:

Computational Engineering International, Inc.
